

ONE SHOE, TWO SHOE, RED SHOE, BLUE SHOE
Minor grade

All students – please remove your shoes and place them in a pile on the floor.

In class today you are to shoot a minimum of 20 images of shoes. You **cannot** leave the classroom to do this project. Do interesting things with the shoes, put them in strange places or use multiple shoes to create a different look. Make sure you have a variety of images.

Once you have finished taking your photographs. Place them into a Powerpoint presentation with one photo on each slide. This means you should turn in a presentation that is at least 21 slides in length.

Be sure to turn it into the right folder on the server. Look for the folder titled "One Shoe, Two Shoe" in your classroom folder.
